The Abitibi/ABTco Siding Claims Program

Please Fill Out This Form If You Are Making A Claim For Siding On A Structure, and This Is Not Your First Claim Under The Claims Program For This Structure. See www.abtcoclaims.com for more information.

Under the Class Action Settlement approved by the Court, Claimants must complete and file this Claim Form to be eligible for compensation under the ABTco Siding Claims Program for Claims made after the initial Claim on the structure.

Please type or print your responses in ink. We may ask for additional information if it is required to process your Subsequent Year Claim.

This Subsequent Year Claim will be evaluated and determined on the basis of the information required by this form and information already in our system from one or more previous inspections. In addition, the Abitibi/ABTco Customer Support Office may contact you to arrange for another on-site inspection of the structure and the siding to obtain additional information, if allowed under the Settlement.

Please review the contents of this Claim Package. It should include the following: (1) a 5 page claim form including a photo log; and (2) 3 pages of the attached instructions. If you need a camera to take the required photographs, please contact the Abitibi/ABTco Customer Support Office and they will send you a free, disposable camera. If you have requested the Subsequent Year Claim Form from the Customer Support Office (1-800-549-4465), a pre-addressed mailing envelope and a disposable camera are also included.

You may only file a Claim if you are a current owner of a structure on which Abitibi/ABTco Hardboard Siding (the “Siding”) was installed and you meet certain other criteria that may apply and are more particularly described in the Notice of Settlement of Class Action (the “Notice”). Please refer to the Notice for further details.

1. Photographs

- The Customer Support Office has enclosed photographs from your prior claim which shows damage already compensated.
- First, you must photograph each side of the structure.
Using a camera, please take at least one clear photograph of each side of the structure.

(4 photographs: front, back, left side, right side) Each photograph should show the entire side from directly in front of that side.

Fill out the attached Photo Log to describe the content of the photos you take. For example, “ Photo #1 – Front of house.”

- Second, take pictures of any siding that is damaged since your last claim (new damage). See enclosed photographs for reference. Take the photographs close enough to the siding so that someone looking at the picture can see why you believe the siding is damaged. If you wish, you may show the siding is soft, warped, experiencing thickness swell or edge checking or another defect by showing a thumb or another object deforming or penetrating the siding. This may aid in the assessment of damage to your siding.

Fill out the attached Photo Log as you take the pictures and describe the area of the structure in the picture and the damage you intend to show in the picture.

- Third, obtain hard-copy prints of the photographs. Obtain **3” x 5” color** prints of all of the photographs that you take. You will have to pay the cost of developing and/or printing these photographs. (You may want to keep a second set of prints of the photos for your personal records.)
- Fourth, number the back of each photograph. Make sure that you number the backs of the pictures so that they correspond to the descriptions that you wrote down in the numbered paragraphs of the Photo Log.

Include all of the photographs in the packet that you return to us with this Claim Form.

2. Descriptions: In the space provided on the form, describe the damaged siding for which you are making a claim. Explain what you think is wrong with the siding.
